

PROFESSIONAL SUMMARY :-

Web Developer with 1 year of experience in building and deploying scalable web applications. Skilled in developing secure, user-friendly solutions, managing workflows through Azure DevOps, and ensuring quality with unit testing and documentation. Proactive in delivering Proof of Concepts and resolving critical issues to support business goals.

EDUCATION :-

Bachelor of computer science

Duration - 2020 – 2023

Alpha arts and science college,
porur, chennai

Percentage - 75%

SKILLS & TOOLS :-

Frontend - React.js, Material UI, Ant Design, Bootstrap, UiVerse, HTML5, CSS3, JavaScript, Wordpress.

Backend - Node.js, Express.js, REST APIs, MongoDB.

Testing & Deployment - Postman (API Testing), Unit Testing, IIS Manager, Git (branch management)

Project Management - Azure DevOps (ticket handling, sprint tasks,), Technical Documentation.

WORK EXPERIENCE :-

Web Developer | MERN Stack Developer

Techminds Group LLC

Duration - June 2024 - June 2025

Project - Product Development SyenApp

- Contributed to SyenApp (shopping platform) by building a web-based internal Admin Panel using **React.js**, **Node.js** and **MongoDB** to manage core data including users, products, rewards, purchases, brands, and sales.
- Integrated REST APIs and performed API testing with **Postman**, ensuring reliability and smooth backend–frontend communication.
- Implemented role-based authentication (Super Admin, Admin, User) to secure internal access and enforce permissions.
- Deployed the web application on **IIS Manager** with dedicated Git branch management for development, testing, and production environments.
- Managed development workflow using **Azure DevOps**, including ticket handling, sprint task tracking, and release management.
- Produced technical and functional documentation for new requirements before initiating development, ensuring clear specifications and smooth implementation.
- Delivered Proof of Concepts (POCs) for new features — e.g., integrating **Google Cloud APIs** to fetch user emails with consent via **Node.js** and **React.js**.
- Developed **HTML** pages for sales campaigns as quick deployable solutions, integrated with mobile app workflows.
- Built web scraping solutions in **Python (Selenium)**, extracting data from multiple sources and storing it in JSON for internal use.
- Supported **WordPress** site development, handling custom layouts, plugins, and live deployments.
- Collaborated with teams to resolve critical **UI/UX** bugs and optimize overall system performance.
